Muntin scribing fixture

For the length cut with double cut – muntin saw SP 92

AV - SP 92

easy and fast :

**With the scribing fixture you mark the muntin
for the cut on the muntin saw SP 92.**

field of application:

- Use for length measurement for the cut of muntins with the muntin saw SP 92.
- For muntins with a length from 130 mm to 2500 mm (according to the length of the scribing fixture).

characteristics:

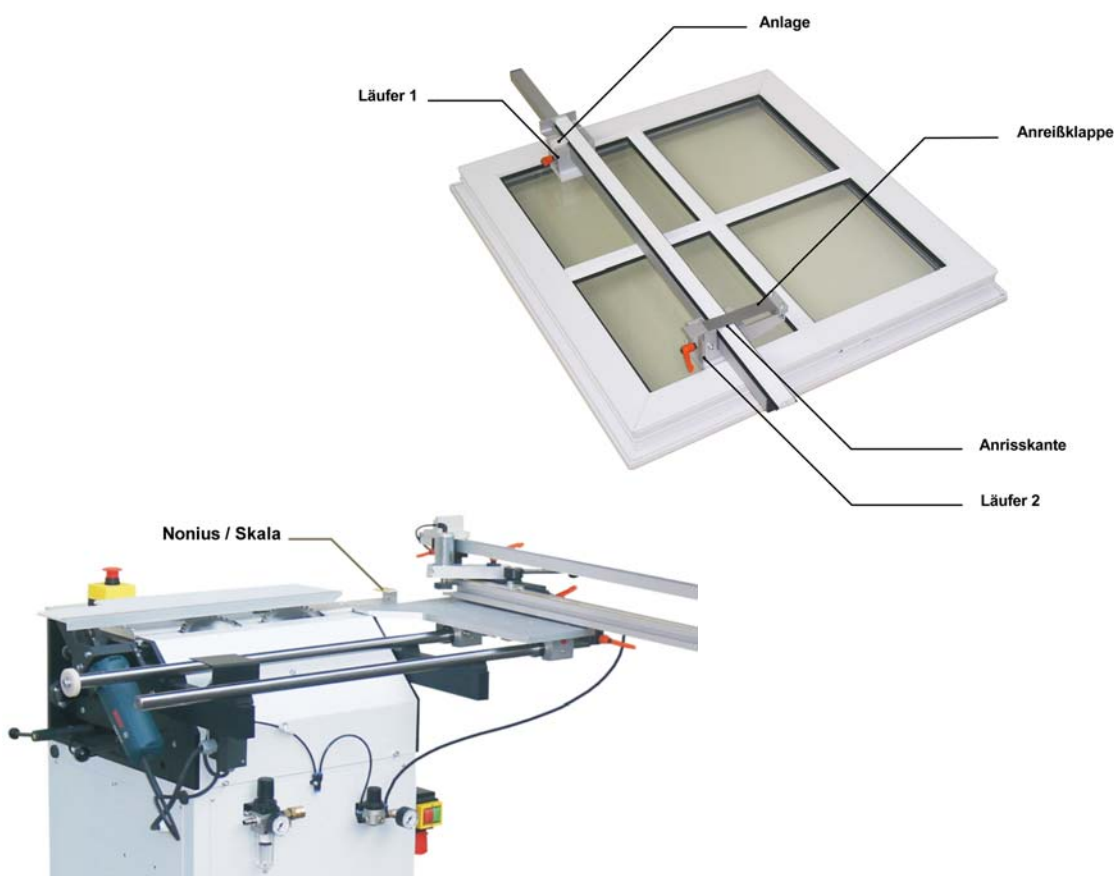

- No length measurement according to standards or scales, due to that parallax- or transcription faults are impossible.
- little weight

application:

- Cut first muntin end with the muntin saw SP 92.
- Bring scribing fixture AV – SP 92 in the required position on the window, apply the runners outwards and clamp.
- Lay the muntin on the scribing fixture and move the already cut muntin end against the stop at the runner 1.
- Lay the scribing flap on the muntin and draw a thin line at the scribing edge.
- Lay muntin on the workpiece holder of the muntin saw SP 92.
- Adjust the mark (thin line) according to the nonius / scale at the SP 92 and clamp the muntin.
- Cut of the second muntin end.

option:

- special length up to 2500 mm
